Solid Raised Ranch with 4,300 SqFt!

This is one amazing custom built home! There are so many features and a lot of room that just pale in comparison to it's newer subdivision counterparts. Take for instance the wide open entry, living room & dining area... this first thing you notice is an entertainers dream & one great feature of the home. Perhaps you're looking for a big kitchen to prepare those holiday meals? This one is 22 X 15 with an eat-in area big enough for the whole family! Maybe you want a luxurious master suite? This one has an updated bath with no detail overlooked & direct access to the covered deck. Needing a home that can accommodate your horses? With 5.7 acres and a two stall barn this is one great two horse property! Want a man cave?? How about this 29 X 16 Family room with dry bar? This home has something for everyone & must be seen. Set up your showing today... You'll be glad you did!
