## A Timeless Turn of the Century 2 Story

*With a classic two story look from the outside, the inside will surprise thanks to a master suite complete with sitting room/nursery, walk in closet & full private bath. Or maybe you'll enjoy the office/lounge space off the dining room. With French doors this classy spot can be used for many purposes and will set your home apart from others. The kitchen was updated five years ago & has expanded cabinets, a pantry, tile back splash & newer counter tops. This is just a classic home, in an amazing location with all of your needs close by. The Walkscore® of this home is 82! That's VERY walkable. Not only is dining & entertainment less than two blocks away, but the grocery store & other necessities are near by too. Stop in & get a look at this one today. It may be the one you've been waiting for.*
